### 3. Salience Maps

**DISCLAIMER:** The stories listed for each point are either exhaustive or sampled randomly. All saliency maps are based on the loss calculated in the binary test setup. The tokens marked red indicate “contribution” to the predicted class, the tokens marked blue indicate “contribution” to the not predicted class.

#### 3.1. Inducing Noise

Each randomly sampled story shows the saliencies assigned to it by BERT, ROC model, CLOZE model, and MIXED model. For each model, two stories are shown: The first is the default story, the second one the story induced with noise.

##### 3.1.1 Sample 1

BERT:

Predicted Label: 1

[CLS] my sister in law dropped off some baked chicken. the dish looked very appealing. my wife heated the dish up. we ate the chicken but found it to be very bland. [SEP] we agreed that it was the best meal we had ever eaten. [SEP]

True Label: 1

Predicted Label: 1

## 3.2. Trigger Words

In the following document, saliency mappings of tokens for one sentence for each trigger word is shown. For each trained model, the mapping for each trigger word is done for the original sentence (with triggers), the sentence with triggers removed and the sentence with triggers changed to a synonym (triggers synonymized). Additionally, the actual label (label) and the label predicted by the model (prediction) is shown. The labelling for Huggingface transformers is used. As a result, "0" means the ending is true and "1" means the ending is false.

### 3.2.1. ROC model

sentences with instead:

with triggers label:0

prediction:0 [CLS] aaron ' s girlfriend asked him to come over for dinner . she said she was making his favorite , chicken alfredo . aaron was very excited she wanted to cook , but he hated alfredo . she must have mixed up his words when he told her his least favorite . [SEP] aaron suggested he help her cook another meal instead . [SEP]

triggers removed label:0

prediction:0 [CLS] aaron ' s girlfriend asked him to come over for dinner . she said she was making his favorite , chicken alfredo . aaron was very excited she wanted to cook , but he hated alfredo . she must have mixed up his words when he told her his least favorite . [SEP] aaron suggested he help her cook another meal . [SEP]

triggers synonymized label:0

prediction:0 [CLS] aaron ' s girlfriend asked him to come over for dinner . she said she was making his favorite , chicken alfredo . aaron was very excited she wanted to cook , but he hated alfredo . she must have mixed up his words when he told her his least favorite . [SEP] aaron suggested he help her cook another meal alternatively . [SEP]

sentences with ever:

with triggers label:1

prediction:0 [CLS] ed wanted to make homemade juice for his family . he bought a bag of orange ##s and juice ##d them . then he chilled the juice overnight . in the morning , he served it to his family . [SEP] it was the best apple juice that they had ever had . [SEP]

triggers removed label:1

prediction:0 [CLS] ed wanted to make homemade juice for his family . he bought a bag of orange ##s and juice ##d them . then he chilled the juice overnight . in the morning , he served it to his family . [SEP] it was the best apple juice that they had had . [SEP]

triggers synonymized label:1

prediction:0 [CLS] ed wanted to make homemade juice for his family . he bought a bag of orange ##s and juice ##d them . then he chilled the juice overnight . in the morning , he served it to his family . [SEP] it was the best apple juice that they had at any point had . [SEP]

sentences with anymore:

with triggers label:1

prediction:0 [CLS] pam was in love with josh but she didn't know how to get his attention . s he talked to her friends , and she talked to her parents . they all offered advice that didn ' t quite work for her . finally , she just went up to him and told him her feelings . [SEP] pam ' s friends won ' t talk to her anymore . [SEP]

triggers removed label:1

prediction:0 [CLS] pam was in love with josh but she didn't know how to get his attention . s he talked to her friends , and she talked to her parents . they all offered advice that didn ' t quite work for her . finally , she just went up to him and told him her feelings .
